

The Ultimate Bundle for Young Professionals

UL + term + CI riders

Recent graduates ... their debts are high...their income potential even higher. Bundling products is a cost-effective way to cover a variety of needs and give them a flexible plan that will grow with them.

THE SITUATION	THE NEED
<ul style="list-style-type: none"> Debbie Jones, MD (28). Young professional. Recent graduate with large student loan. High future earning potential. 	<ul style="list-style-type: none"> Cover her short-term student debt. Put insurance in place now, while she's young and healthy, to meet future needs. Opportunity for tax-advantaged growth as her income grows. Help with student loan debt payments should she be diagnosed with a critical illness.

THE SOLUTION

\$250,000 Equation Generation® IV universal life with:

- \$500,000 term 10 rider - Lowest cost insurance to cover her student loans,
- \$250,000 term 20 rider - Most cost effective way to cover longer-term debt like business loans,
- \$250,000 10 year renewable to age 75 critical illness insurance rider.

Debbie's Plan	Monthly Premium
\$250,000 universal life with yearly renewable term (YRT) cost of insurance	\$29.79
\$500,000 10-year renewable and convertible term life rider	\$13.13
\$250,000 20-year renewable and convertible term life rider	\$15.52
\$250,000 EquiLiving® critical illness 10 year renewable to Age 75	\$51.30
Minimum required premium	\$109.74
Additional funding (to help offset the increasing YRT cost of insurance)	\$40.26
Total planned premium	\$150.00

Rates effective February 12, 2022. Assumes standard non-smoker rates. Includes universal life policy fee of \$10. No additional policy fees for riders.

THE FUTURE

- Within 5 years, Debbie can switch¹ her 10-year term rider to a 20-year term rider and benefit from a longer period of low-cost coverage. This would be ideal for providing mortgage protection should she buy a house.
- She also has the option in the future to convert² her term rider to permanent insurance without providing additional evidence of insurability.
- As Debbie's income rises, she can further overfund her plan to maximize her deposit room and tax-advantaged growth within the universal life policy. Care will need to be taken to ensure that the funding and investment returns will be able to support all future costs for the rest of her life.
- As her income increases, she can lock in level premiums by changing her critical illness coverage³ to a level pay critical illness insurance plan or she can accelerate her payments and change to a 20 pay critical illness insurance plan.*

One policy ... one policy fee. Comprehensive coverage ... now and into the future.

FOR ADVISOR USE ONLY

* Age restrictions apply. ¹ Must occur prior to the 5th anniversary or up to age 65, whichever comes first. ² The conversion must occur prior to age 71 of the life insured. ³ Additional evidence required.
