Premiums are payable for this Policy, for the period specified in the Premium Schedule/Table of Charges of this Policy. With Level to Age 100 as your premium type, your premiums are guaranteed for the life of your Policy. At the Policy Anniversary nearest the Person Insured's 100th Birthday, premiums will cease, and no further premiums for this Policy will be required.

PREMIUMS-continued

Premium Tax: The premiums shown in the Premium Schedule include a provision for Premium Tax. Equitable Life remits the Premium Tax to the Government(s) on your behalf.

This Policy will lapse, and all liability of the Company under the Policy will terminate at the end of the 31-day Grace Period following an unpaid renewal premium.

If the Person Insured is Diagnosed with a Covered Condition during the Grace Period, and survives the applicable Survival Period, the Covered Condition Benefit, once approved, will become payable, less the premiums past due. If the Person Insured dies during the Grace Period the benefit under Return of Premiums at Death will become payable, if applicable, less the premiums past due.

If this Policy has a Return of Premiums at Surrender/Expiry Rider in effect at time of change, any Premiums to be Returned that have accumulated for the Rider will be carried over to the new plan if the new plan has a Return of Premiums at Surrender/Expiry Rider. Policy anniversaries will be deemed to start at the date of the change for the purposes of calculating policy anniversaries under the Return of Premiums at Surrender/Expiry Rider.

CLASS OF RISK

Classification of Risk: Equitable Life evaluates insured persons into different “Classes of Risk” based on insurance risk. These Classes of Risk are used to determine the Premium rates applicable to each Life Insured based on the amount of insurance coverage.

Each Class of Risk currently available for this Rider takes into consideration anticipated health and insurability of the proposed Life Insured(s) based on mortality risk (refers to the incidence of death) and Lifestyle. Lifestyle Classification risk factors include more specific aspects of your family’s health history, tobacco usage, health, lifestyle, and other information as deemed pertinent by the Company, in conjunction with the type and amount of insurance coverage being applied for.

The applicable Class of Risk is determined at the Effective Date of this policy and is shown on the Description of Benefits page(s) of this policy.

These classes indicate the Premium rates set by Equitable Life for a Standard Classification for the type and amount of insurance coverage provided. A standard or normal mortality risk assessment is 100%. A Class of Risk greater than 100% indicates a higher mortality risk. The Class of Risk will affect the Premium rates.

The Class of Risk and Lifestyle classification of this rider may be different than the classes for the Base policy or for any other rider or benefit.

Premium and

Changes to Classification: In addition to the Classifications of risk, Equitable Life uses sex, age and the type and amount of insurance coverage applied for in determining the Premium rates. The Death Benefit amount and the Class of Risk are shown on the Description of Benefits page(s) of your policy. The Premium is shown on the Premium Schedule page(s) of your policy.

If you request any amendment to your policy, including an improvement of the risk classification of any coverage, such request is subject to our consent and will be based on the administrative rules in effect at that time.

Term Life Insurance Rider – continued**Automatic Coverage**

Continuation Provision: If the base policy to which this Rider is attached ends, and this Rider is in force at that time, we will continue the coverage provided under this Rider until the earlier of the expiry date for this coverage, or until you ask us to terminate the coverage. The premiums for the continuation of coverage may increase and you may be able to request additional riders to be added, based on the administrative rules in effect at that time.

Separate Term Life

Insurance Policy Option: At any time, you may request that the Insurance Coverage applicable to a Life Insured under this Rider be cancelled and a separate policy be issued on that Life Insured. This option will be based on the administrative rules in effect at that time.

Conversion Option:

At any time prior to the Policy Anniversary nearest the Life Insured's 71st birthday and while this Rider and the Policy to which it is attached are in force, the Rider may be converted without evidence of insurability, to any permanent life insurance product issued by Equitable Life at that time, based on the administrative rules in effect at that time. The converted policy will be at the then published rates at the attained age of the Life Insured applicable to the converted policy, at the same class of risk and status as shown in the Coverage Specifications page(s) of the Policy. Upon conversion this Rider will terminate.

The completed application for conversion must satisfy any other requirements we may deem necessary for compliance with the provisions of the policy and any applicable laws.

You may convert the Insurance Coverage of the Term Insurance rider, provided that the election of a dividend option or death benefit option on the new policy does not increase the Insurance Coverage amount. If such dividend option or death benefit option is elected, the coverage amount will be subject to the consent of the Company and may be subject to evidence of insurability. The amount of insurance coverage on the permanent product must not exceed the original amount of insurance being converted and must meet the minimum and maximums then required for the amount of insurance coverage, premiums and age by the Company for the product selected. The Life Insured's Class of Risk and Premium rates applicable to any portion of this policy that is not converted may change due to the minimum amount of insurance coverage required to be eligible for certain risk classification and Death Benefits.

Preferred

Similar preferred risk classification, as determined by us

Non-preferred risk classification, as determined by us

Non-preferred

The premium required for the converted insurance coverage will be based on our then current premium or cost of insurance rates for the product and insurance amount requested using the Life Insured's sex and attained Age at the date of conversion, with the appropriate Class of Risk established under this Term Conversion option.

Any change to class of risk or status requested by the Owner on conversion will be subject to providing satisfactory evidence of qualification for the requested change to Equitable Life.

If the Policy has Disability Waiver of Premium Rider attached to it, the converted policy may contain a Disability Waiver of Premium provision, without evidence of insurability, provided

- the Life Insured is not currently disabled, and
- the Life Insured has not had premiums waived under the Policy during the twelve (12) months prior to conversion.

If the Policy did not have a Disability Waiver of Premium Rider, then evidence of insurability satisfactory to Equitable Life will be required to include a Disability Waiver of Premium Rider on the converted policy.

Term Life Insurance Rider – continued

If an Insurance Coverage(s) contains any total disability provision and the Life Insured is disabled prior to the Policy Anniversary nearest the Life Insured's 60th birthday and the disability continues to the Policy Anniversary nearest the Life Insured's 65th birthday, conversion not previously having been requested, the Insurance Coverage(s) will be automatically converted to a permanent life insurance product as determined by us and subject to our then current administrative rules and practices and the premiums for the new policy will be waived while the disability continues.

If the Conversion Option is elected while premiums are being waived under the Waiver of Premium Rider, premiums will become payable under the converted policy.

Partial Conversion Option:

You may elect to partially exercise the Conversion Option with conversion to a new policy with an amount of insurance less than the maximum permitted by the Conversion Option. At that time, the Owner may elect to continue this Rider, for the reduced amount, subject to that reduced amount not being less than the minimum required for this Rider. This is provided that the death benefit amount payable under this Rider together with the benefit amount payable under the new policy, is not greater on death or disability of the Life Insured than what would have been payable by us had the partial conversion not take place.

The Life Insured's Risk Classification, Lifestyle Classification and Cost of Insurance rates for this rider may also change, as determined by us, depending on our minimum amount rules for the remaining amount of this rider.

Upon partial conversion future premiums and benefits associated with this reduced Rider will be determined based on the reduced amount.

The terms and conditions of the Conversion Option and Partial Conversion Option will continue to apply to this reduced Rider.

10 Year Renewable and Convertible Term Exchange Option:

If you have a 10 Year Renewable and Convertible Term rider you have the option, while this rider is in force, to exchange this rider for a 20 Year Renewable and Convertible Term Insurance Rider without evidence of insurability, based on the administrative rules in effect at that time..

This option is available beginning on the first anniversary of the Effective Date of the Insurance Coverage shown in the Description of Benefit(s) pages and ending on the earlier of the 5th anniversary and the anniversary nearest the Life Insured's 65th birthday, at which time this option expires.

The completed application for exchange must satisfy any other requirements we may deem necessary for compliance with the provisions of the policy and any applicable laws.

You may exchange the full amount of the 10 Year Renewable and Convertible Term Insurance, or a portion of it, subject to our consent and the minimum amount of insurance required at the time. The amount of the 20 Year Renewable and Convertible Term Insurance Rider cannot exceed the Insurance Coverage amount for the 10 Year Renewable and Convertible Term Insurance Rider and must not be less than the minimum required.

Any increases to the amount of Insurance Coverage would be subject to satisfactory evidence of insurability and based on the administrative rules in effect at that time.

The premium required for the exchanged 20 Year Renewable and Convertible Term Insurance Rider will be based on our then current 20 Year Renewable and Convertible Term rates and the Insurance Coverage amount requested using the Life Insured's sex and attained Age at the date of exchange. A similar class of risk will apply, as determined by us, as the original 10 Year Renewable and Convertible Term Insurance Rider being exchanged, subject to our then current administrative rules and practices. The Effective Date of the 20 Year Renewable and Convertible Term Insurance Rider will be the date of exchange.

The 10 Year Renewable and Convertible Term Insurance Rider cannot be exchanged if premiums are being waived under the Disability Waiver of Premium provision and the exchange option cannot be extended if it expires during the period premiums are being waived under the Disability Waiver of Premium Provision.

Term Life Insurance Rider – continued

Any evidence of the Life Insured's health and insurability, which formed part of the Contract on or before the date of exchange, will be deemed to form part of the Contract under which the exchanged 20 year Renewable and Convertible Insurance Coverage is provided.

If there is any exclusion that is applicable to the 10 Year Renewable and Convertible Term Rider, a similar exclusion will apply to the exchanged 20 Year Renewable and Convertible Term Rider, along with any limitations to our liability regularly included for the type, amount, and Risk Classification of the exchanged coverage then issued.

Reinstatement:

a) If your Renewable and Convertible Term insurance policy lapses at the end of the Grace Period because a premium due at the beginning of the Grace Period was not paid, the policy may be reinstated by payment of the overdue premium within a further period of thirty (30) days after the end of the Grace Period, but only if the person whose life was insured under the policy is alive at the time payment is made.

b) If your Renewable and Convertible Term insurance policy lapses and it is not reinstated under subsection (a), the policy may be reinstated within two (2) years of its lapse upon written application by you and submission of evidence of insurability (according to the then current underwriting guidelines as determined by Equitable Life) pertaining to the Life Insured(s) (based on attained age) that is satisfactory to Equitable Life.

The reinstatement of this policy must be accompanied by the payment of an amount equal to the sum of the following:

- (i) the Premiums that would have been required to maintain the policy in force from the date of lapse to the date of reinstatement; plus
- (ii) interest due on the above amount.

These amounts will be determined by Equitable Life at the time of request for reinstatement.

The rate of interest to be charged above will be determined by Equitable Life, but will not exceed that permitted under current legislation.

This Rider and all benefits associated with it terminate on the earliest of:

- (a) the expiry date of this Rider,
- (b) the date the Policy lapses,
- (c) the date of termination of the Policy,
- (d) the date of death of the Life Insured, or
- (e) the effective date of the separate Term Life Insurance policy or converted policy.
