

# Which kind of life insurance is right for you?

Finding the right life insurance to meet your unique needs is as easy as 1-2-3!

## 1 There are basically two kinds of life insurance... term and permanent

**Term insurance is like renting an apartment.** Most people have rented at some point in their lives. You pay your rent but will never own the apartment. Depending on your situation, this can be the best or only option at the time. If you decide in the future to purchase something permanent and move into your own home, you don't take any equity with you.

**Permanent insurance is like owning a home.** It's not just about meeting an immediate need but also about investing for your future. It may be more expensive than renting but you build equity with every payment you make. Plus, if you put money into the house through upgrades and renovations, you can further increase the value.

## 2 Term or permanent? Which is right for you?

To answer that question, you need to ask a few more. What is the purpose of the life insurance? What can you afford?

<sup>1</sup> The cash value of the policy may be accessible via a withdrawal, policy loan or policy surrender. It may be subject to taxation and a tax reporting slip may be issued. Some restrictions and charges may apply. See contract for details.

<sup>2</sup> Equitable policyholders are eligible to participate in the earnings in the participating account through dividend payments. Dividends are not guaranteed and are paid at the sole discretion of the Board of Directors. Dividends may be subject to taxation. Dividends will vary based on the actual investment returns in the participating account as well as mortality, expenses, lapse, claims experience, taxes and other experience of the participating block of policies. They have the potential to increase the value of your policy above the guaranteed amount, depending on the dividend option selected. There are five dividend options to choose from.

<sup>3</sup> There are limits on the amount you can deposit to ensure the policy remains tax-exempt under the provisions of the Income Tax Act (Canada).
