

Daily/Guaranteed Interest Account

The Daily Interest Account and Guaranteed Interest Account offer a safe and stable investment. These low-risk investment options provide competitive interest rates and protection from market volatility.

Daily Interest Account (DIA)

The DIA offers clients a short-term savings solution. It is also ideal for emergency savings. Clients who have not yet defined their goals may find DIAs ideal since money may be withdrawn at any time.

Guaranteed Interest Account (GIA)

For clients with a low-risk tolerance or who are looking to diversify their portfolio to include guaranteed holdings, a GIA might be the solution. Clients choose a 1- to 15-year¹ term and receive a competitive guaranteed interest rate.

Compound interest or simple interest² payout options are available. The simple interest option pays interest on a monthly or annual basis.

Clients can withdraw money prior to the maturity date of the term but a market value adjustment applies.

How a GIA compares to a Guaranteed Investment Certificate (GIC) offered at a bank.

Both GIAs and GICs lock in a set interest rate for a specific period of time, but GIAs provide additional features and benefits.

Benefits of Investing

Savings stability

GIA and DIA deposits are guaranteed and offer clients a low-risk investment option.

Competitive interest rates

Clients with large deposits can access further enhanced rates.⁵ For upcoming maturities or transfers, the current interest rate can be locked-in for up to 45 days.

Access to money

Clients can withdraw from a DIA at any time. A GIA is held until the maturity date but can be redeemed early. Early redemption is subject to a market value adjustment.

Creditor protection

Creditor protection may be available and goes to the contract owner in the event of a bankruptcy or lawsuit. Creditor protection is not guaranteed and is dependent on several factors including, the designation of the annuitant's spouse, child, parent, or grandchild as beneficiary.⁶

Estate planning

At death, proceeds from a DIA and GIA go directly to the named beneficiaries. This means bypassing the estate. This allows the proceeds to avoid possible probate, legal and executor fees.

Pension Income Tax Credit

The interest income from a DIA and GIA qualifies for the Pension Income Tax Credit. This means a client 65 years or older may claim the first \$2,000 of interest on a non-registered account as eligible pension income.

Safe and secure

Equitable is a member of Assuris. Assuris is the not-for-profit organization that protect Canadian contractholders in the event their insurance company fails.
