Which product is best for you?

Choosing the right selection of investments can be a challenge. It's important that your investment portfolio aligns with your financial objectives, time horizon and attitudes towards risk.

In this brochure, you will meet five sample investors, each with their own unique investment goals and challenges. For each investor, we've suggested which Equitable Life investment product is most suitable, based on their personal circumstances and financial goals.

Which product is best suited for your needs? Your financial advisor can explain the advantages of each option, and how you can benefit from incorporating an Equitable Life product into your financial plan.

**Sample client profile:**

**Pivotal Select Estate Class**

John, 42 years old, wishes to save money towards retirement. He owns a successful small business and hopes to protect personal holdings from professional liability. John wants to maximize his growth potential and doesn’t feel he needs the additional protection of enhanced guarantees.

Mary, 73 years old, wants to protect the $100,000 she has put aside for her children in the event of her death. She would like to invest her assets in a way that protects her investment, as well as provides an opportunity for growth potential. Upon her death she would like the assets to transfer to her children in a cost effective manner.

Diane, 50 years old, would like the opportunity to grow her assets before retirement. While she’d like to invest in equities for greater growth potential, she doesn’t want to have to worry about sudden market downturns before retirement. She would like to know that regardless of market performance, her principal investment is guaranteed to be there when she retires at 65.

Which product is best for you?

Choosing the right selection of investments can be a challenge. It’s important that your investment portfolio aligns with your financial objectives, time horizon and attitudes towards risk.

In this brochure you will meet five sample investors, each with their own unique investment goals and challenges. For each investor we’ve suggested which Equitable Life product is most suitable, based on their personal circumstances and financial goals.

Which product is best suited for your needs? Your financial advisor can explain the advantages of each option, and how you can benefit from incorporating an Equitable Life product into your financial plan.

Pivotal Select™ segregated funds

Protection Class - Growth and principal protection

- Growth potential
- Principal protection with a 100% maturity guarantee*
- Estate protection with a 100% death benefit guarantee
- Protect market gains with annual death and deposit maturity guarantee resets
- Investment choice of 34 diverse segregated funds
- Potential for creditor protection and bypassing probate by designating a beneficiary
- Investment accessibility to meet discretionary income needs

* Every 15 years the policy contract has a deposit maturity date. On that date, the contract guarantees the greater of the market value, or the applicable maturity guarantee. A 100% maturity guarantee applies to deposits made prior to the first policy anniversary. A 75% maturity guarantee applies to deposits made on or after the first policy anniversary. Any withdrawals will proportionately reduce the maturity guarantee.

Payout annuities

Guaranteed income

- Provides guaranteed income payments
- Excellent for essential income needs
- Predictable and sustainable income
- Tax advantaged income through prescribed taxation
- Simple and easy to understand

Guaranteed Interest Account

Guaranteed growth and security

- Guaranteed investment return for short and long term goals
- Security of principal with a guaranteed rate of return
- Access to your investments at any time. If a withdrawal is made prior to the end of the investment term a market value adjustment may apply.
