# Flexible, safe, secure

A guaranteed interest account (GIA) guards against market volatility by providing security of principal with a guaranteed rate of return. GIAs are an ideal account for creating an emergency fund, saving for a special purchase, or as a way of diversifying your portfolio to include guaranteed holdings.

## Guaranteed interest account investment options:

### Daily interest account (DIA)

The DIA offers a fluctuating annual interest rate that is compounded daily and credited monthly\*. The DIA may be ideal for those seeking a stable and secure investment for short term savings, emergency savings, or for those who have not yet defined their goals. You may withdrawal your money at any time and will not be charged any fees\*\*.

### Guaranteed deposit account (GDA)

GDAs are a great way to earn a competitive interest rate and safely grow your savings. At Equitable you can choose to have the interest compounded on an annual basis, or select the "simple interest" option where the principal is maintained and the interest is paid to you on a monthly or annual basis.

### Term deposit account (TDA)

TDAs are long-term simple interest accounts that provide a regular and reliable source of income within a retirement income fund (RIF) or life income fund (LIF). Ideal for retirees, this investment provides guaranteed income with the interest earned deposited directly to your bank account on a monthly or annual basis – the choice is yours.

## Benefits the guaranteed interest account can provide:

### Savings stability

Deposits made to the DIA, GDA and TDA are fully guaranteed and can be accessed at any time\*\*. Partnered with our competitive rates, these investments are a great way to diversify your portfolio and grow your savings.

### Competitive interest rates

You are guaranteed to keep what you invest while earning a competitive interest rate on your money. Upon request we can lock in the current interest rate for up to 45 days for incoming transfers and maturing deposits.

### Creditor protection

As an insurance contract, your guaranteed interest account may provide creditor protection for the contract owner, subject to certain conditions.

### Estate planning

At death, the proceeds from your guaranteed interest account may be passed directly to a named beneficiary and may avoid probate, legal and executor fees.

### Safe and secure
