
DO YOU KNOW DARREN?

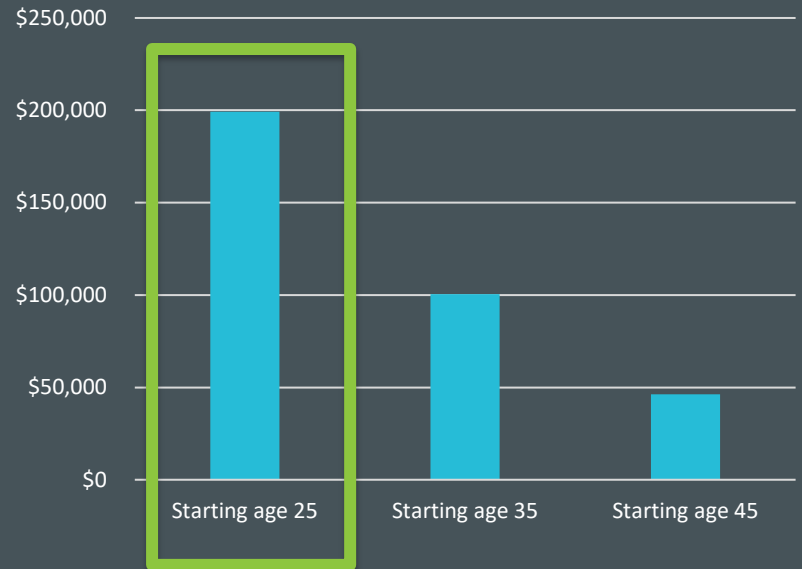

Darren recently moved from contract to full-time employee with his employer. Darren's dad told him to consider a savings account now that he is earning more money. Darren feels he is too young to start worrying about saving. At age 25, Darren feels he has tons of time.

DARREN SHOULD START INVESTING RIGHT AWAY AND HERE IS WHY.

Look at how much more Darren will have if he starts his savings plan 10 years earlier. Saving \$100 per month beginning at age 25, by retirement time the money invested will grow to \$199,149.

RSP money grows tax-deferred until Darren withdraws the money, allowing him to take full advantage of compound growth opportunities.
