Only available for Personal Investment Portfolio (PIP), Pivotal Solutions II, and Pivotal Solutions DSC policies. Resets are not available on RRIF or LIF policies. Please refer to your information folder for an explanation of terms and benefits. Submitting a new reset request will void the current guarantees and any previous reset guarantees.

For Personal Investment Portfolio (PIP), Pivotal Solutions II and Pivotal Solutions DSC contracts issued prior to January 1, 2011

I/We authorize a reset of the death and maturity benefit guarantees on the above-mentioned policy. The reset date will be the date this direction form is received at our office.

I/We understand the following reset provisions:

- Exercising this reset will lock in the current value of the segregated fund portion of the death and maturity guarantees on the reset date.
- The reset will not be permitted if:
 - This form is not signed by the appropriate parties.
 - Two resets have already been done in the current calendar year.
 - It is past the calendar year in which the annuitant turns 80 for non-registered plans and TFSAs, and 71 for registered plans.
 - The new guarantee base is less than the current guarantee base. Depending on the performance of your funds, it is possible that the guarantee base will increase with the reset but that the death benefit will decrease. Your advisor can provide you with information to determine if this will occur.
 - The maturity date cannot be extended to 10 years after the reset date.
- Resets elected on a registered contract that is maturing in fewer than 10 years: If the policy is not transferred to an Equitable Life RIF or LIF at maturity, the current/previous reset guarantees will be void.
