

PATH SUCCESS™

Expert Advice on Navigating **CI** Sales

PROGRAM OVERVIEW

This program was designed with you, the Advisor, in mind. Path to Success: Expert Advice on Navigating CI Sales provides you with actionable ideas and scripts that can be implemented immediately into your critical illness insurance meetings.

This dynamic program will not only help introduce critical illness insurance to your clients, but also provides you with tactics and strategies on how you can overcome the most common critical illness hurdles faced in the industry. In reviewing each element of the program, perhaps even some of your own personal objections or perspectives regarding critical illness insurance and selling it to your clients will be answered or reshaped.

Each of the modules below are made up of several elements that will provide you with a:

- description of the topic written from the perspective of the critical illness meeting,
- scripting for that specific element of the critical illness sale, and
- summary video of the key learnings and sales language

To keep scripts in each element concise, we typically reference only the top three conditions when talking about the coverage provided by critical illness insurance. Please keep in mind, that while Stroke, Heart Attack and Cancer are the top three conditions claimed for, a comprehensive critical illness plan typically covers over 25 critical illness conditions.

MODULE	ELEMENTS
Overview of Critical Illness Insurance	<ul style="list-style-type: none"> • History and Opportunity • The three realities of Health • Four Question CI Sale
Overcoming Objections	<ul style="list-style-type: none"> • Anticipating the objections your clients may have • CI is expensive • I can use my own money • I don't understand the definitions • I already have disability insurance • I'm healthy, why are you showing me this? • Maybe later • That doesn't sound like enough coverage • I have mortgage insurance
