

Universal life investor profile questionnaire

Universal life combines the benefits of tax-advantaged* life insurance protection with competitive savings and investment options.

Designing your savings and investment portfolio

Our wide investment selection available with universal life is ideal for building a portfolio that is suitable for conservative investors to those looking for more aggressive growth...and everyone in between. You can invest in any combination of the following:

- Daily interest account:
 Earns interest in a manner similar to a savings account.
- Guaranteed deposit accounts:
 Available in terms of 1, 5 and 10 years.
- Linked interest options:
 Non-registered accounts that enjoy tax-advantaged growth* with performance that reflects domestic, global equity, or bond markets.

What is asset allocation?

Asset allocation is the process of determining which asset classes (guaranteed investments, fixed income, equity) should be included in your policy and in which proportions. Each asset class has a different level of risk and return and reacts differently to market conditions. The goal is to find the mix that provides you with a balance between risk and potential return that won't keep you awake at night. Proper asset allocation may help to reduce volatility within your portfolio while increasing the potential for higher returns.

Three steps to selecting your ideal investment portfolio:

- 1 What's your investor profile?

 Complete the questionnaire to help determine your financial goals and timeline to achieve those goals.
- 2 Interpret your score
 Consider how comfortable you are with investment risk.
 For example, will you lose sleep over investments that fluctuate in value?
- 3 Design your portfolio
 Create a balanced portfolio that
 suits your financial needs through
 a mix of asset classes.

^{*} Subject to maximums and other restrictions as prescribed in the Income Tax Act (Canada)

Name:			
-------	--	--	--

Step 1: What's your investor profile?

This questionnaire can assist in finding the portfolio that best fits your time frame, financial goals and the amount of risk you are willing to assume. Choose the option best suited to you. Answering the questions honestly will help your advisor recommend an investment mix unique to your situation.

1. Tell us						
	abou	t your RRSP planning	;.			
	a.	I contribute to RRSPs but am nowhere near my maximum limit				
	b.	I faithfully maximize my RRSPs every year				
	c.	I do not regularly contribute to my RRSPs				
	d.	d. I am currently drawing an income from my registered funds				
2. What is	s the	primary reason for pu	urchasing this typ	e of insurance?		
	a.	To provide an income	e for my dependen	its and/or cover my final expenses (fune	eral costs, legal fees, income taxes) in th	ne event of my death
	b.	To create or preserv	e an estate for my	beneficiaries		
	c.	To maximize my tax-	-advantaged inves	tment opportunities		
	d.	To accumulate weal	th that can be tran	nsferred tax-free to my beneficiaries u	pon my death	
	e.	To achieve both life	insurance protect	ion and tax-advantaged investment gr	rowth	
3. What a	re yo	our goals with respect	t to the savings po	ortion of your policy?		
	a.	Grow my savings sat	fely to be used for	emergency purposes only		
	b.	Assist in paying the	ongoing insurance	e costs of my policy

8. Choose	the	statement that best describes your attitudes towards investment risk.			
	a.	I want my investments to be secure even if it means that my investments will not keep pace with inflation			
	b.	I am willing to accept a low level of fluctuation in the value of my investments to attempt to keep pace with inflation			
	c.	I am willing to accept a moderate level of fluctuation in the value of my investments to attempt to achieve investment returns somewhat higher than inflation			
	d.	d. I am willing to accept a high level of fluctuation in the value of my investments to maximize my tax-advantaged growth potential			
9. When considering investment return, what is the maximum decline in the value of the investment portion of your policy that you would be willing to accept over a one year period?					
	a.	0%. Stability is important to me			
	b.	o5%			
	c10%				
	d20%				
	e25% or greater. I understand that markets periodically correct themselves and I have confidence in its long-term prospects				
10. Which	of t	the following ranges includes your current age?			
	a. [□ Under 40 b. □ 40 to 49 c. □ 50 to 59 d. □ 60 to 69 e. □ Over 70			

Calculate your score

Match each of your responses from the previous questions to the corresponding point value.

	a	b	С	d	e	f	Total
1.	2	5	0	2			
2.	0	6	10	7	6		
3.	0	8	10	15	4		
4.	0	5	8	10	10		
5.	0	2	3	4	6		
6.	0	2	5	6	8		
7.	0	1	2	2	2	1	
8.	0	5	10	15			
9.	0	3	6	9	12		
10.	8	6	4	2	0		

Step 2: Interpret your score

Once you have determined your score, match it to one of the six investment profile categories:

Total score	Investment profile category
0 to 25 points	Minimal risk
26 to 41 points	Conservative
42 to 57 points	Moderate conservative
58 to 73 points	Balanced
74 to 87 points	Growth
88+ points	Aggressive growth

Your investment profile category reflects a number of factors including time horizon, age, investment knowledge and your personal financial situation.

I have reviewed the questionnaire with my advisor.	Date (dd/mm/yyyy)

Total score

This investment profile questionnaire is intended to provide you and your financial advisor with suggested savings and investment mix selections within a universal life insurance policy. This information does not constitute legal, tax, investment, or other professional advice. It is strongly recommended that you speak to your financial advisor or other professional regarding your individual insurance, savings and investment goals. While Equitable has made every effort to ensure the accuracy of the information presented here, the policy contract governs in all cases.

Step 3: Design your portfolio

Below you'll find suggested portfolios for each investment profile category. Design your own portfolio by choosing from a combination of guaranteed investments, fixed income or equities in the proportions recommended. Or, for a simpler approach, select the portfolio interest option that best fits your profile.

Investment profile categories

1. Minimal Risk - 0 to 25 points

100% Guaranteed (Guaranteed/Term Deposit Accounts)

2. Conservative - 26 to 41 points

30% Equity, 45% Fixed Income, 25% Guaranteed

45% Balanced, 30% Fixed Income, 25% Guaranteed OR

Diversified Income Portfolio Interest Option

3. Moderate Conservative - 42 to 57 points

40% Equity, 40% Fixed Income, 20% Guaranteed OR

60% Balanced, 20% Fixed Income, 20% Guaranteed OR

Balanced Income Portfolio Interest Option

Balanced Growth - 58 to 73 points

60% Equity and 40% Fixed Income OR 100% Balanced OR

Growth Portfolio Interest Option

5. Growth - 74 to 87 points

80% Equity and 20% Fixed Income 80% Balanced and 20% Equity OR

Growth Portfolio Interest Option

6. Aggressive growth - 88+ points 100% Equity

Diversified Equity Portfolio Interest Option

Guaranteed Fixed Income Equity

If you would like further details on the savings and investment opportunities available with your universal life plan, please talk to your advisor.

The linked interest options available with your universal life policy offer exposure to both equity and fixed income markets. While linked interest options may provide the potential for greater rates of return over the long term, there is an inherent risk in selecting them as investment options. Unlike the daily interest account or the guaranteed deposit accounts where there are guarantees surrounding the credited interest rates, investments in the linked interest options are not guaranteed. It is possible to receive negative interest, which will result in a decrease to your account value. You want to ensure that there are always sufficient funds to cover the monthly charges including cost of insurance, administration and any riders and benefits. Linked interest options are NOT mutual funds or indices; you are NOT investing in or acquiring units in a mutual or investment fund or other security. You are placing funds on deposit, earning interest, with the general funds of Equitable. Performance is not guaranteed. Past performance does not guarantee future results. You may be credited positive or debited negative interest depending on the performance of the Mutual Fund or Index being tracked. The mutual fund or index being tracked may change at any time. Linked interest option administration fees will apply.
